

# Missouri Public Transit Association 2022 MEMBERSHIP DIRECTORY

PUBLIC TRANSIT GOES BEYOND SIMPLY PROVIDING TRANSPORTATION SERVICES . . .

IT IS DELIVERING ON ITS PROMISE IN EVERY COUNTY IN MISSOURI – ACCESS, OPPORTUNITY AND ECONOMIC RETURNS.

# MISSOURI PUBLIC TRANSIT IS DELIVERING \$3.6 BILLION TO MISSOURI'S BOTTOM LINE WHILE ENSURING ACCESS IN EVERY COUNTY FOR EVERYONE, EVERY DAY

Thousands of Missouri Public Transit Association (MPTA) provider employees work collectively to provide tens of millions of rides a year to customers in every rural and urban county in the state. Service is offered almost everywhere, for everyone, every day. While communities have seen dramatic changes over the last two years, there are a few things that remain unchanged – Missouri residents' reliance on public transportation, reaffirming transit is essential to this state. It provides access to jobs, education, healthcare and essential goods and services. It also promotes economic opportunity and results in significant economic returns for the state.

This year the Missouri Public Transit Association (MPTA) is celebrating 42 years of providing a unified voice for public and specialized transportation providers in Missouri working toward elevating the status of public transit as a priority. Four plus decades later, MPTA continues to work to ensure transit has a voice, by promoting access to public transit services.

According to the 2019 Economic Impact Study of Missouri Public Transit, transit is delivering in Missouri and positively impacting the state's bottom line. The direct and indirect economic output supported by public transit's annual operations exceeds \$3.67 billion. In addition, this year MPTA will release the results of the MO Statewide Transit Needs Assessment Study which will highlight additional transit needs across our state. Transit is essential, and transit is delivering on its promise to Missouri.

*"Transportation is kind of like electricity and water. You don't think about it until it's not there. Then you think a lot about it."*

– Southeast Missouri Transportation Service (SMTS)

The benefits of public transit extend far beyond getting people to and from destinations. Transit also creates jobs, stimulates local economies, attracts investment, reduces the number of single-occupancy vehicles on the road, is environmentally-friendly and contributes to the financial well-being of the state.

So, whether an individual uses transit or not, it's beneficial to every Missourian.
