Missouri Public Transit Association Members provide more than 62 million rides each year

Missouri Public Transit is the sole means by which many Missourians are able to get to work, school and doctor appointments, as well as gain access to goods, services and entertainment. Without transit, some simply could not get by.

The Missouri Public Transit Association (MPTA) was established in 1980 to provide a unified voice for public and specialized transportation providers in Missouri and to work toward elevating the status of public transit as a priority. Thirty-nine years later we continue to work to ensure transit has a voice in this state.

MPTA transit provider members provide more than 62 million rides almost everywhere for everybody every day in Missouri, and they employ thousands in our communities. The MPTA mission values personal mobility as a basic

quality of life by promoting access to public transit services.

The facts show investment in transit increases access to jobs, education and healthcare; creates development opportunities and jobs; and provides reinvestment in the disadvantaged areas of our state. According to the American Public Transit Association, for every dollar invested in transit projects there is a \$4 return for the state.

2019 MPTA Goals

Elevate the status of transit in Missouri
Build new coalitions to expand advocacy
Promote and support MPTA members

The benefits of public transit extend far beyond getting people to and from destinations. Transit also creates jobs, stimulates local economies, attracts investment, reduces the number of single-occupancy vehicles on the road, is environmentally-friendly and contributes to the financial well-being of the state. So, whether an individual uses transit or not, it's beneficial to every Missourian.
